

I recieved a letter from KLOVE informing me that you may make changes that would take KLOVE off the air in my area. I listen to it daily and refer friends and co-works offen when they talk about what a hard time they are going through. I am a finacial supporter and am happy to see my money used so well. I am sure others feel the same because the radio station continues to grow and is supported by listeners. I would hate to loose this if it is displaced by LPFM.
